

Dr Harpreet Kaur

Postdoctoral Fellow, Dacks Lab, Division of Infectious Diseases, Department of Medicine, University of Alberta, Edmonton, Alberta, Canada.

Biosketch

Dr Harpreet Kaur is a Postdoctoral fellow at University of Alberta, Canada. She completed her Bachelors, Masters and Doctorate in Zoology from University of Delhi. Her major research interests include a characterization of free-living ciliated protists as indicators of pollution and their impact on the micro-ecology of river Yamuna flowing through National Capital Region (NCR) of Delhi, India along with exploration of biodiversity of ciliates from the extremophilic regions of India. She is also focusing on understanding the evolution of contractile vacuole related proteins in ciliates using transcriptomic approach. She has attended workshops and presented her research at both national and international platforms in addition to 8 research publications.
